Learning on Graphs Conference
Call for Sponsorship

What is the LoG Conference?

LoG is a new annual research conference launched in 2022 that covers areas broadly related to **machine learning on graphs** and **geometry**, with a special focus on **review quality**.

We believe that a conference dedicated to learning on graphs plays an **important role in bringing together the research community** and accelerating progress in machine learning on graphs.

Since their development, graph learning methods have proved to be both valuable to the **practitioner** and of considerable **theoretical** interest.

The many **applications** in chemistry 🧪, network science 🕸️ and biology 🧬 have fuelled this enthusiasm for years.

Plans for LoG 2025

The third edition of conference will take place from **28th - 30th September 2025**.

The main event will be both **virtual** and **free**, as well as **in person** at the campus of **UCLA** in Los Angeles, USA 🇺🇸.

As always, there will be a big emphasis on **local meetings** around the world 🌍.

LoG in Numbers

The inaugural edition of LoG took place in December 2022 virtually via Zoom and GatherTown. This success was followed by the second edition of LoG that took place in December 2023 virtually as well as a 'network' of local mini-conferences around the world.

- **Lausanne, Switzerland** 🇨🇭
- **Tromso, Norway** 🇳🇴
- **Madrid, Spain** 🇪🇸
- **Oxford, UK** 🇬🇧

LoG is advised by the top researchers in graph learning

Regina Barzilay
Professor, Massachusetts Institute of Technology (MIT)

Xavier Bresson
Associate Professor, National University of Singapore (NUS)

Michael Bronstein
Professor, University of Oxford

Stephan Günnemann
Professor, Technische Universität München (TUM)

Stefanie Jegelka
Associate Professor, Massachusetts Institute of Technology (MIT)

Shuiwang Ji
Professor, Texas A&M University

Thomas Kipf
Senior Research Scientist, Google Brain

Jure Leskovec
Professor, Stanford University

Pietro Liò
Full Professor, University of Cambridge

Razvan Pascanu
Research Scientist, DeepMind

Bastian Rieck
Principal Investigator, Institute of AI for Health, Helmholtz Munich

Jian Tang
Assistant Professor, HEC Montréal, Mila

Jie Tang
Professor, Tsinghua University

Petar Veličković
Staff Research Scientist, DeepMind

Soledad Villar
Assistant Professor, Johns Hopkins University (JHU)

Marinka Zitnik
Assistant Professor, Harvard University

Wei Wang
Professor, University of California, Los Angeles

Smita Krishnaswamy
Associate Professor, Yale University

BRONZE
$2,000

- Display company logo on our website and between the live sessions

- Access to the list of conference registrants + their CV (if the attendee agree)
